# Timesheet for Jira Mouse Free AI

## LOG TIME IN JIRA 10X FASTER

Replace click-heavy dialogs with an Excel-style keyboard grid. Start tracking, approve worklogs, and export billable hours without leaving Jira.

### SPEND LESS TIME TRACKING, MORE TIME BUILDING

Simple, powerful time management built directly into your Jira workspace.

#### KEYBOARD-FIRST TIME TRACKING

Navigate and log time across multiple Jira issues entirely from your keyboard

#### REAL-TIME TIMERS

Start and stop active timers directly inside your issues to record work automatically.

#### 10X FASTER THAN NATIVE

Eliminate slow modals and click-heavy dialogs to save developers hours weekly.

#### MANAGER APPROVAL WORKFLOW

Review, approve, or reject team timesheets with notes directly in Jira.

#### BILLABLE HOURS TRACKING

Configure role-based rates to track project costs and profitability in real time.

#### EXCEL EXPORT & REPORTING

Export clean, invoice-ready timesheets directly to XLSX files with one click.

A friction-free interface tailored for developers, managers, and billing teams.
